

磁性液位开关 Magnetic Level Switches

多点液位检测磁性液位开关 Multi-Float Level Switches

垂直安装型
Vertical Type

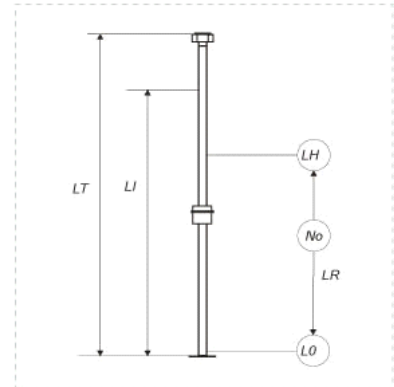

水平安装型
Horizontal Type

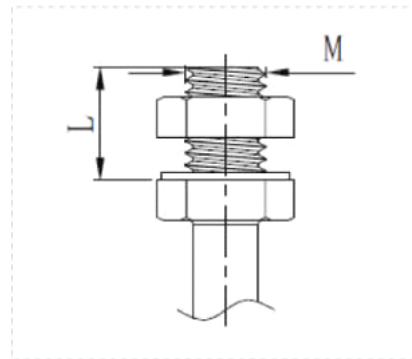

连续液位检测磁性传感器 Continuous Liquid Level Sensors

外形尺寸 Dimensions(mm)

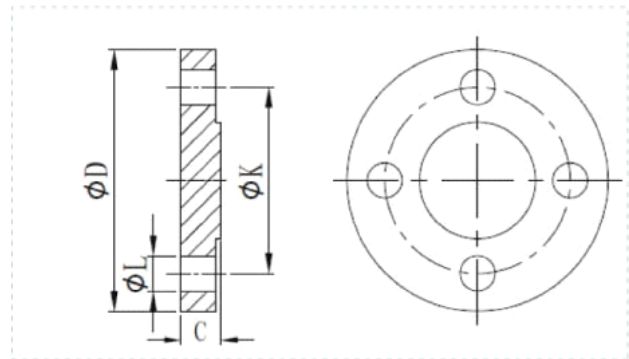

LT	Total length of the probe
LI	Length within the vessel (storage, reflux and buffer, tank, settler, etc...)
LO	Base of the probe, reference point for reed relays, set as LO=0
LH	Height of upper level, from the base
No	No of reed switches built in the probe, 2 means low and high
LR	Operational level of reed switches in the tube, from the base

- ◆ 信号输出方式 Signal Output: 电阻型 Resistance Output;
电压型 Voltage Output(0-5v, 0-10v)
电流型 Current Output(4-20mA)
- ◆ 浮球 Float: SUS / NBR / PP / EPS
- ◆ 外壳材质 Housing Material: SUS 304 / SUS 316
- ◆ 连接方式 Connection Mode

螺纹 Screw thread

法兰 Flange

出线方式 Outlet Mode:

- ◆ 直接导线输出 (客户可自定义线长、端子和插头) Cable Outlet (Customer can define cable length, termination and plug)
- ◆ 接线盒输出 (防爆要求) Junction box (with explosion-proof requirements)
